**MASONRY!**

It's  
Different.  
**IT WORKS!**  
Year 'round!

## BIODEGRADABLE GRAFFITI REMOVER for MASONRY!

# Remove **multi-layered and painted over** graffiti!

**TAGINATOR®** sprayable liquid quickly dissolves graffiti. It soaks through graffiti and into masonry surfaces allowing graffiti to be easily pressure rinsed away. Even multi-layered graffiti or graffiti that has been painted over is easily washed away! **TAGINATOR®** is *so effective* the need to pre-coat masonry with sacrificial or permanent coatings is not necessary.

**TAGINATOR® works in all climates (hot & cold) and surfaces (wet & dry)!**

Works on:

Brick • Cinder Block • Slate • Marble • Granite • Stucco • Terra Cotta • and many other surfaces!

Preferred by:

Public Works • Housing Authority • Parks/Forests • Highways & Mass Transit • School Systems

## Just follow these *simple steps*:

1. Spray **TAGINATOR®** onto graffiti using **TAGSPRAYER™**.

Watch as **TAGINATOR®** breaks down graffiti

2. Let **TAGINATOR®** soak into masonry for **30** minutes.

**TAGINATOR®** soaks deep, through the multi-layered graffiti.

3. High pressure rinse away.

**TAGINATOR®** fully restores masonry after pressure rinse.

## MAKES BARRIER COATINGS OBSOLETE!

A graffiti removal product such as **TAGINATOR®** requires an applicator that can withstand the chemical combinations it contains. **ETS Co.** has designed a sprayer specifically for use with **TAGINATOR®**. See **TAGSPRAYER™** literature sheet.
